WARNING SIGNS CARD

Stroke: BE FAST

Spot a stroke. Act fast.

BE FAST: call 112 or 108 now

- **B**alance: sudden loss of balance or dizziness
- **E**yes: sudden loss of vision or double vision
- **F**ace: one side of the face droops
- **A**rm: weakness, or one arm drifts down
- **S**peech: slurred, muddled, or can't speak or understand
- **T**ime: call now, and note the time the symptoms started

While you wait

- Don't give food, drink or tablets
- If they are drowsy, lay them on their side
- Even if the symptoms go away, they still need hospital today

Emergency: 112 · Ambulance: 108

Based on NHS stroke guidance and the BE FAST stroke signs. General information, not personal medical advice. Checked November 2026.
